

# SOPRAGUARD CORNER

## DESCRIPTION

Sopraguard Corner are prefabricated exterior corners that provide a quick and easy solution for waterproofing these specific details.

This 3D product is made from a 1.2 mm EPDM membrane, shaped to fit a 90° corner.

## PREPARATION

- Prepare the corner area by removing all dirt from the surface and from the Sopraguard EPDM membrane.

## APPLICATION INSTRUCTIONS

- The prefabricated corner is joined onto the previously installed EPDM membrane, which must be mechanically fastened or adhered to the substrate at least 20-30 cm around the corner.
- Once the membrane is secured, the corner piece is positioned and bonded onto the EPDM membrane using Sopraguard Max adhesive or Bond HT sealing adhesive.
- Once adhered, its edges must be sealed with Bond HT.

## PRESENTATION, STORAGE AND SHELF LIFE

	SOPRAGUARD CORNER
Presentation	Supplied in 5 units per box.
Storage	Store in a dry and protected place.
Shelf Life	Does not expire.
